COMPASSION | RESPECT | INTEGRITY

At the core of Moama Anglican Grammar's commitment to education we strive to provide a safe and inspiring educational environment that equips students with the skills and confidence to help create their future.

Moama Anglican Grammar

Our School

Moama Anglican Grammar is a co-educational, independent Kindergarten - Year 12 Anglican School with an open entry policy.

From very humble beginnings, strong community support, sound financial management and hard work by dedicated teachers and parents, the School has developed into a thriving educational community. Commencing in 2005 with only 16 students, the School has grown rapidly to an enrolment of our 700 students, with facilities keeping pace with the increasing student numbers.

In 2010 the Board made a significant strategic decision to open additional Year Levels from Kindergarten to Year 4. This expansion consolidated the School within the region as a unique single campus school offering continuous education from Kindergarten to Year 12, the first in the region. In addition to the building program, the academic and co-curricular programs have also been strengthened and expanded.

Offering K-12 on the one campus enables students to pass seamlessly across the traditional transition points of primary and secondary school. They can experience our culture of care over their whole schooling starting

from Kindergarten, with Year 7 being the other common entry point. As a consequence, knowledge about each student can be passed on from year to year ensuring students are catered for in terms of their individual needs.

Our diverse student base resides in both NSW and Victoria. Echuca/Moama is an important agriculture region as well as having a strong tourism industry. Many families are engaged in these industries in addition to the health sector and essential services.

Staff are encouraged to engage with every aspect of school life. The School operates academically as separate primary and secondary schools, although students are able to mix in the school grounds.

In late 2023, the School acquired a 84 acre property, Gunbower Estate. The acquisition of Gunbower Estate is a significant moment in our School's short history. This will enable Moama Anglican Grammar to establish a dedicated Experiential Learning Facility which provides integrated learning opportunities and character development experiences for students in Kindergarten through to Year 12.

Echuca/Moama

A Region of Choice

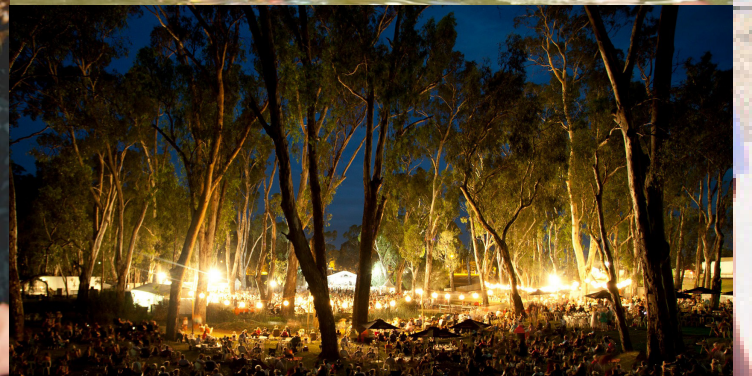

Moama Anglican Grammar is set in the idyllic location of Echuca/Moama on the Murray River which offers appealing lifestyle, employment and education opportunities in a vibrant and successful community.

Located on the banks of the mighty Murray River, the twin towns are the closest point of the Murray to Melbourne – just a two and a half hour drive. Boasting more sunny days than Queensland, the Echuca Moama Region has a temperate climate. Summers are hot and dry, spring and autumn are typically warm, whilst winter mornings are cold and frosty turn in to bright sunny days. Echuca/Moama is a great destination to live and work.

The region is home to the world's largest operating paddlesteamer fleet, and the oldest operating wooden hulled paddlesteamer, the 1866 PS Adelaide. Echuca Moama is home to over 22,000 people and is a tourism favourite, welcoming over 1.5 million visitors each year.

Alongside tourism, the region is famous for its agricultural industry, national parks and forests, sporting clubs and the emerging food and wine scene. Boasting numerous cafes, coffee spots and restaurants between the twin towns and festivals for locals and visitors alike to enjoy. There is always somewhere new to explore on the weekend.

Our Values

Our mission is to provide a safe and inspiring educational environment that equips students with the skills and confidence to help create their future.

The School's core values are: Compassion, Respect and Integrity. The School's focus is on each student as an individual, seeking to assist each of them to achieve his or her potential. At the same time, we aim for students to develop a strong sense of honour, caring for themselves, others and the world they live in.

The School culture is one of nurture and care, ably supported by our pastoral care program that establishes a sense of personal responsibility and self-efficacy in students throughout their educational journey. The academic performance of the school is benchmarked against best practice. Teachers provide dynamic, purposeful and engaging teaching and learning environments for students in an explicit teaching approach in dedicated classrooms. The School currently has a focus on Deep Learning which is being implemented across the Primary and Secondary School.

Moama Anglican Grammar particularly focuses on the practical application of visible thinking skills and problem solving in order to build a growth mindset that will be needed for the future; one that embraces critical questioning, innovation, service and continuous improvement. Our commitment to life-long learning is evident in the breadth of our educational program and in the co-curricular opportunities we are able to provide to our students. We work in close partnership with families to support the development of the whole person.
